Sir:

On January 5, 2004, Applicants filed an Information Disclosure Statement in the above-captioned matter. In the Information Disclosure Statement, a number of US and foreign patent documents, which had all been cited in the parent application were brought to the Examiner's attention, copies thereof were provided to the Examiner, and a Form PTO-1449 was also provided.

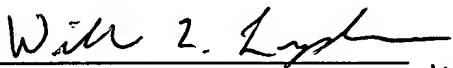

Also noted were seven English language abstracts of the cited Japanese patent documents noted in the Information Disclosure Statement, which abstracts were also listed on the Form PTO-1449. Although all of the patent documents were initialed, the English abstracts were crossed off of the Form PTO-1449. To complete the record, Applicants assume that the English language abstracts of the Japanese patent documents were considered by the Examiner during consideration of the underlying documents.
